GEO TILES

Inspired by modern simplicity, the love of clean lines and the versatility of texture, Geo Tiles by Soelberg Industries come together to create movement and motion in geometric form.

Geo Tiles are available in a complete package of 4 tiles and double stick-double bond tape for easy installation. Each tile is 22" x 22" and can be finished in any of our 3D laminate colors. Visit soelbergi.com to view the full collection of laminate options.

By rotating 90, 180 or 270 degrees you can tailor and customize your very own wall story. Go geometric. Go Geo.
